

Grade 4 Unit 7

- **BE SURE TO ANSWER AND LABEL ALL PARTS OF THE QUESTION.**
- **Show all your work (diagrams, tables, or computations) in your Student Answer Booklet.**
- **If you do the work in your head, explain in writing how you did the work.**

Diego was throwing a party. He needed 94 chairs. Each chair cost \$6.00 to rent.

- A. How much would it cost to rent the chairs? Show your work or explain how you got your answer.
- B. Diego was going to put the chairs in groups of 3, 6 or 10. Using **the divisibility rules**, explain if there would be any leftovers chairs outside a group of 3, 6 or 10.
